Postdoctoral Research Fellow in Technology, Skill and the Future of Work

Deadline: 16 November 2022 at 11:59 pm (CEST)

POSITION

The University of Milan is seeking a Postdoctoral Research Fellow in Technology, Skill and the Future of Work. The candidate will make a key contribution to a cross-European research project, focused on technology and organizational change. The research project, titled 'Up-skilling for Industry 5.0', is funded by the Horizon Europe stream and is designed as a series of case studies in four countries and focusing on contrasting industries and focal technologies.

Starting date: **December 2022.**

CANDIDATE PROFILE

This post is based in the Department of Economics, Management and Quantitative Methodologies (DEMM). The ideal candidate will have a PhD in organization studies, sociology, anthropology, or an interdisciplinary combination. Applicants will be skilled in qualitative research methods and have experience of ethnographic methods. The person will be responsible for conducting ethnographic fieldwork at the Italian case study sites. The candidate will also prepare written reports, produce periodic case write-ups and collaborate with European partners. The postholder will contribute to dissemination of project findings through participation in appropriate academic and practitioner conferences and contribute to publications.

The successful candidate will contribute to research the impacts of advanced technological change, in terms of the human skills needed to interact directly with technologies, and in terms of changes to job roles and contents.

Oral and written knowledge of the Italian language is required.

THE EMPLOYER

The University of Milan is a leading institute in Italy and Europe for scientific productivity, with an established reputation as one of the institutions most strongly committed to basic and applied research in Europe. It is the only Italian member among the prestigious Universities of the League of European Research Universities (LERU). It is ranked in the top 200 Institutions in the Shanghai Ranking of World Universities.

The postholder will work in an interdisciplinary and dynamic research environment, engaging with colleagues across different departments, including DEMM and the Department of Social and Political Science. The research team has engaged in a range of projects, focusing on new ways of working and digital technologies, contemporary craft work, HR management practices & wellbeing.
