PhD Fellow Researcher in Supply Chain Sustainability - University of Jaén-iESG, Spain

The University of Jaén, a dynamic and research-intensive institution located in the picturesque Southern Spain, is seeking a highly motivated PhD Fellow Researcher to join our team and the European Institute for Sustainability in Management (iESG) in the area of Supply Chain Management. This prestigious position, offered in collaboration with Professors José Moyano and Sebastian Bruque, is aimed at exploring the sustainability aspects within supply chain management, circularity and managerial behavior. The selected candidate will have the unique opportunity to apply for a Marie Curie position for the 2024 call, significantly enhancing their research exposure and impact.

Key Qualifications:

- A Ph.D. in Supply Chain Management or a closely related field with a maximum Post-Doc Experience of 8 years.
- An appealing publication record, demonstrating expertise in SCM or in sustainability management.
- Fluency in English; knowledge of Spanish is advantageous but not required.

We Offer:

- A competitive labor contract (3 years) with a gross monthly salary of €5,080 (upon submission and approval of the Marie Curie position).
- The chance to work under the supervision and support of internationally recognized experts Prof. José Moyano (Research Profile) and Prof. Sebastian Bruque (Research Profile) fostering enduring collaborative relationships for publishing in internationally recognized scientific journals A vibrant research environment in Technology and Technology Management at a medium-sized public university known for its commitment to excellence and innovation.
- Joining a cutting-edge research institute, the iESG, a common research endeavor of 5 Andalusian Universities on sustainability studies. This institute is focused on the study of

sustainability in a broad sense. One of the objectives of this institute is to attract and strengthen research talent with scientific excellence. This involves actions aimed at attracting new highly qualified researchers through highly competitive calls, such as Marie Skłodowska-Curie Actions-Postdoctoral Fellowships.

Candidates are invited to submit their application, including a CV, a list of publications, and a cover letter outlining their research interests and qualifications. Applications should be sent directly to sbruque@ujaen.es. Join us in advancing the sustainability of supply chains on a global scale. Let's innovate together at the University of Jaén and iESG.
