POSITION DESCRIPTION

Discipline: Accounting, Finance, International Business, Management (including environment management and energy management), Economics, and other related fields

Position: Assistant Professor/ Associate Professor/ Full Professor

Location: Zhuhai, China

Website: https://bibs.bnu.edu.cn/

BEIJING NORMAL UNIVERSITY

Beijing Normal University (BNU) is a public comprehensive university that is renowned for education science, basic sciences and humanities. Its roots go back to 1902 when it was established as the Normal School of Peking University. According to QS World University Rankings,

BNU is ranked top 10 among Chinese mainland universities. In 2017, it was included in Category-A list of the country's initiative to build world-class universities, and 11 disciplines have been selected for China's "Double-First Class" Initiative. BNU is vigorously building a system for high-caliber research and a "one body-two wings" pattern where the Beijing Campus and Zhuhai Campus complement and reinforce each other with different areas of focus.

BAY AREA INTERNATIONAL BUSINESS SCHOOL

Bay Area International Business School at Beijing Normal University (referred to as the Business School henceforth) pursues its vision to be a leading international business school in the world. Located in the Gunagdong-Hong Kong- Macao Greater Bay Area of China, the Business School is committed to building a high-quality business education platform, which will connect the students with top firms in the industry as well as link academic research with the development of the Greater Bay Area. In terms of curriculum, the Business School not only covers traditional disciplines of business-related areas but also offers cutting-edge application-oriented disciplines based on the current developments of industry. At the same time, the Business School integrates high-caliber research, tertiary education and social service together. As a research-oriented business school, the Business School pays a great attention to research and innovation, inviting academic talents from all over the world to join the Business School and creating a platform for researchers to work with enterprises in the industry.
