Faculty Positions 2025-2026

in Management Information Systems and in Supply Chain Management & Logistics

The School:

Founded in 1963, ISC Paris is a French Business School with campuses in Paris and Orléans. Accredited by the French Government (Visa and Master's and Bachelor's degrees) and by international bodies (AACSB, AMBA, EFMD Master's, and BGA), ISC Paris is a private, not-for-profit higher education institution and a member of the Conférence des Grandes Écoles. We offer undergraduate, graduate, and executive education programs, including Bachelors, the Grande École Program, MScs, MBAs, DBAs, and Professional Certificates.

As part of our strategic development and our commitment to sustainability studies—covering areas such as Business Ethics, Circular Economy, Equality & Inclusion, and Responsible Consumption—We are looking for professors who are preferably committed to this field of studies.

Position Overview:

In alignment with our 2030 strategic vision, ISC Paris is reinforcing its academic expertise by providing an environment where professors, whether in research track or teaching track, contribute

to shaping the next generation of business leaders who will drive transformational change in consumption, transport, production, and work practices.

Starting in September 2025, we are seeking applications for Assistant or Associate Professors in the following fields:

- **Management Information Systems**
- **Supply Chain & Logistics**

Candidate Profile & Expectations:

- A completed **doctoral degree** in a relevant field.
- A demonstrated commitment to **teaching excellence**, in both French and English, at undergraduate and postgraduate levels.
- A strong **research record**, with published or ongoing projects in peer-reviewed journals. A focus on sustainability-related issues will be considered a plus.
- A passion for **teaching innovation** and new learning models.
- Active involvement in **recognized academic communities**.
- A willingness to contribute to the **institution's development and student mentorship**.

What We Offer:

- **Research Support:** Access to research funding, a dedicated research center, and industry collaborations.
- **Career Development:** Opportunities for professional growth, mentorship programs, and a structured career progression path.
- **Work-Life Balance:** A supportive environment with flexible working arrangements.
- **International Environment:** A diverse and dynamic faculty with global exposure.
- **Commitment to Diversity & Inclusion:** ISC Paris actively promotes an inclusive and equitable academic environment.

Application Process:

Interested candidates should submit their applications to **facultyposition@iscparis.com** with the subject line: "Faculty Application - [Your Name] - [Position]."

Applications must include:

- A **cover letter** outlining academic experience in teaching and research.
- A **curriculum vitae**, including teaching evaluations (if available) and a list of publications over the past five years, with journal ranking references (FNEGE and/or AJG formerly ABS).
- A **statement of research and teaching interests**.
- A **representative sample of two publications and/or research papers**.
- Contact details for three **academic references**.

Please specify in your application whether you are applying for a position at our **Paris** and/or **Orléans** campus.

We look forward to welcoming new faculty members who share our vision and commitment to academic excellence.
