Assistant/Associate Professor in Information Systems (IS) at Grenoble Ecole de Management

Grenoble Ecole de Management (<http://www.grenoble-em.com>) is a fast-growing business school located at the foot of the French Alps in a vibrant and growing Grenoble-Alpes metropolitan area with over half million population and a strong emphasis on high-tech industries. The School benefits from this community and has established a strong reputation in the management of technology and innovation. The School has multiple campuses, including a Lab dedicated to innovation and experimental research situated at the heart of the scientific neighbourhood of Grenoble (La Presqu'île de Grenoble), with direct links to engineering schools. In the French Silicon Valley, GEM is a member of the national AI excellence center MIAI -cluster. The School has gained an international reputation for its high-quality research output and innovative pedagogy. As a triple accredited school (AACSB, EQUIS & AMBA), our diverse programs and research initiatives are consistently ranked among the best both nationally and internationally. We offer a diverse range of degrees, including Bachelor's, Master's, MBA, DBA, and PhD.

Symbolizing our ambition to reconnect with our core values and Alpine identity, EAGLE 2030 -- the Strategic plan for the 5 next years -- embodies GEM's excellence and commitment to major transitions. This plan, structured around three key pillars, reaffirms GEM's position as the Business School of Science, Transitions, and Learning Journeys, driven by a bold and transformative vision.

As part of this trajectory, the Department of Management, Technology and Strategy of Grenoble Ecole de Management invites **applications for a full-time position of assistant or associate professor in Information Systems for September 2025, for our Grenoble campus.**

Candidates must hold a PhD in Management with a specialization in Information Systems by the start date of the position. We welcome research in various areas within Information Systems, including but not limited to digital transformation, data analytics, artificial intelligence in business, human-computer interaction.

Candidates are expected to have the **competences to teach subjects such as Business Analytics, Data Management, Python Programming, Artificial Intelligence, and Information Systems Management.** Successful candidates are expected to demonstrate commitment to excellence in teaching students at various levels, along with a proactive and collegial attitude. The position involves:

- Teaching at various levels (from Bachelor to Master + possibilities in MBA and Executive Education) using innovative pedagogy ;
- Supervising students for their Master's thesis and their professional experiences (internships or apprenticeships), as well as supervising DBA students ;
- Engaging and taking part in GEM's school life and ecosystem ;
- Publishing in high-quality, peer-reviewed journals indexed in the ABS or FNEGE list.

Candidates may apply both in French or English. While not required, fluency in both French and English languages is considered a valuable asset. Remuneration will be proportionate to the applicant's academic qualifications and experience.

We seek a candidate who would integrate the Information Systems for Society research team. The Information Systems team has experience publishing at all levels, including MIS Quarterly, European Journal of Information Systems, Journal of the Association for Information Systems, Information and Management, Information Systems Journal, Communications of the Association for Information Systems, and MIS Quarterly Executive. The team members also manage the MS Information Systems Manager and MSc Managing with Data and AI, and are actively involved in the MS Big Data and MS Digital Strategy programs. Current team members conduct research on: 1) Digital transformation; 2) Acceptance and acceptability of digital technologies at work; 3) Human-Computer Interaction; 4) AI and education. The Assistant/Associate Professor in Information Systems (IS) at Grenoble Ecole de Management team shares an interest in promoting both fundamental and applied research. The team has a culture of applying and managing external funding, such as industry-contracts and publicly funded research.

APPLICATION PROCEDURE: To apply, submit your application package including:

- Your CV;
- A cover letter;
- A research statement;
- Recent teaching evaluations (when available);
- Recent publications or job market paper;
- The names and contact information of three referees.

Qualified candidates must send their application package by email to the head of the department: Corine Genet (corine.genet@grenoble-em.com). Deadline: April 30, 2025, or until the position is filled. Applications will be reviewed on a rolling basis.
