# Lecturer in Project Management

**Requisition ID:** 28302

**Location:** Newcastle, GB

**Contract Type:** Open Ended

**Working Pattern:** Full Time

**Posted Date:** 7 Jul 2025

**Salary:** £40,497 - £55,755 per annum

Newcastle University is a great place to work, with excellent benefits. We have a generous holiday package; plus the opportunity to buy more, great pension schemes and a number of health and wellbeing initiatives to support you.

Closing Date: 04 August 2025

**The Role**

Information Systems and Operations is a vibrant community of scholars, researchers, and doctoral students. We are dedicated to advancing our field through cutting-edge research, education, and real-world impact. Our mission is to bridge the gap between theory and

practice by promoting a comprehensive understanding of the constantly evolving field of information technology and operations management. Our vision is a future where organisations achieve unparalleled efficiency, sustainability, and competitiveness. This is made possible through the effective utilisation of information systems and the optimisation of operations, supply chains, and logistics.

Our research covers a wide range of areas such as the applications and impact of digitalisation, digital innovation and transformation, e-commerce, operations management and supply chain and logistics. We also offer a comprehensive suite of taught programmes in the aforementioned areas. These programmes are designed to equip students with the necessary skills and knowledge to excel in their chosen field. By integrating academic excellence with practical expertise, we ensure that our graduates are well-prepared for roles in information systems and operations management. For more information about the Group, please visit our website [here](here)

We are looking for candidates who are not only academically accomplished, but also possesses a genuine enthusiasm for teaching and mentoring students, helping them to realise their potential. We encourage applications from individuals who can complement our existing team, we believe that success is built on having teams whose backgrounds and experiences reflect the diversity of our university and student population.

The successful candidate will have a strong research trajectory in project management, ideally with a focus on digital innovation and transformation projects or other technology-related such as information systems, data analytics, artificial intelligence etc. The successful candidate will have the potential to generate research income, pursue impact activities, and to develop an international reputation.

You will contribute to the research profile of the Information Systems and Operations Subject Group in Newcastle University Business School by publishing in internationally recognised journals, demonstrating research impact, and securing external research funding. Additionally, you will develop and deliver programmes at Newcastle University Business School, ensuring an outstanding teaching experience for our students.

The University has developed an [Academic Job Summary Guidance](Academic Job Summary Guidance) document which summarises the range of activities that academic colleagues may be expected to perform.

We seek colleagues committed to the success and development of the Information Systems and Operations Group who will be good citizens that are willing to contribute to positions of responsibility within the Group and the School.

Newcastle University Business School is located in Newcastle City Centre and at the gateway to the Newcastle Helix, a £350million partnership between Newcastle University, Newcastle City Council and Legal and General, where business meets science.

Newcastle University is a Russell Group institution and the Newcastle University Business School is home to 4000 students and is one of an elite group of Business Schools worldwide to hold triple accreditation from the three internationally recognised

accreditation bodies: AMBA, AACSB, and EQUIS. This is testament to our reputation for our world leading Research and Teaching.

For more information about Newcastle University Business School, please visit our website: https://www.ncl.ac.uk/business/.

To apply please submit a covering statement and provide evidence of how you meet our essential criteria outlined in the person specification within the job description along with your CV.

For an informal, confidential conversation about any of these opportunities please contact our Subject Group Head, Professor Savvas Papagiannidis (savvas.papagiannidis@ncl.ac.uk).
