If you wish to apply for this position, please specify that you saw it on AKADEUS.

Modul University Vienna is seeking an outstanding scholar for an Associate or Full Professor position (depending on the qualifications) with outstanding qualifications in the field of interdisciplinary sustainability analytics for policy, society, businesses, and the environment with a focus on areas such as: cutting-edge analytical sustainability techniques and models; analysis and visualization of global environmental, social and economic datasets; quantifying and ranking spatial environmental impacts and performance; sustainability impact assessment; decision support systems both data- and theory-driven; sustainable digital transformation, etc.

The position is integrated in the School of Sustainability, Governance, and Methods and the applicants are supposed to conduct cutting-edge research in the field of sustainability analytics and to teach in undergraduate, graduate and PhD courses offered in Vienna (see www.modul.ac.at/study-programs)

Associate or Full Professor in Sustainability Analytics (all genders)

Full-time (40 h/w) in Vienna, Austria

Responsibilities

- Acquiring and conducting third-party funded national and international research projects with the aim to further develop their own research agenda in the interdisciplinary field of sustainability analytics.

- Teaching and conducting examinations independently in English at all levels (bachelor's, master's, Ph.D./doctorate, and executive education). The teaching load for this position is 5-10 units/week per semester (1 unit = 45 minutes of teaching), i.e., 10-20 units/week per year, depending on the candidate's profile.
- Actively contributing to the development of Modul University's various teaching programs.
- Supervision of undergraduate, graduate and doctoral theses.
- Participation in the self-governance of Modul University Vienna, which includes an active contribution to administrative and academic services and an active contribution to the university's third mission.

Required Qualifications

The successful candidate is expected to have established an international reputation as a researcher in their field and to have outstanding qualifications:

- Venia docendi or foreign equivalent or an equivalent subject-relevant academic qualification
- Social science background with a focus in interdisciplinary sustainability science
- Evidence of outstanding research ability and potential, through a record of publications in top-tier journals and participation in relevant third party-funded national and/or international empirical research projects; the candidate is expected to submit a research portfolio including a list of the five most important peer-reviewed publications.
- Experience, competence and established commitment to high quality teaching, guidance in scientific work and supervision of PhD students; the candidate is expected to submit a teaching portfolio.
- Ability to teach courses in fields such as sustainability analytics, environmental and ecological economics, interdisciplinary sustainability related subjects.
- Experience in successful acquisition, execution, and management of third-party funded research projects.
- Experience in interdisciplinary team collaboration.
- Activities in scientific networks like international professional societies and other research networks.
- Interpersonal skills including gender and diversity management skills, communication and team, and leadership skills.
- Excellent knowledge of written and spoken English and proficiency in German language is welcome and the willingness to learn German in the first two years.

Why join us?

- Cutting-edge and interdisciplinary research approach with dedicated support in research project acquisition
- Individual professional development
- An international, multicultural and diverse working environment

Contact and Application

This is a full-time, unlimited contract position where applicants are prepared to work up to 40 hours per week (with overtime hours). The initial annual gross salary is EUR 80,000 for an Associate Professor and EUR 108,000 for a Full Professors (plus approx. 30% contribution to the social security and pension fund paid by the employer according to Austrian Law), with additional remuneration for extra teaching or supervision of theses. Application deadline: 30 September 2025; the review of applications will commence immediately after the announcement. Possible starting dates are 1st of March 2026, or 1st of September 2026.
