Lecturer (Assistant Professor) in Management

Lancaster University Leipzig
Salary: €60,722 to €68,051
Closing Date: Friday 31 March 2023
Interview Date: Tuesday 18 April 2023
Reference: 0037-23

Assistant Professor in Management

Lecturer (Teaching and Research) / Lecturer (Teaching and Scholarship)

Lancaster University Leipzig, Germany

Lancaster University Leipzig wishes to appoint an Assistant Professor equivalent to lecturer (Teaching and Research) or lecturer (Teaching and Scholarship) in Management. The candidates will have a PhD (or be close to completing one) and be able to teach at undergraduate and postgraduate/MSc levels, in areas that complement or overlap with the current interests and requirements of any of the Departments of Lancaster University Management School (Accounting & Finance, Economics, Entrepreneurship & Strategy, Management Science, Marketing or Organisation, Work & Technology).

This post arises as a result of international teaching and research activities, which the successful applicant will need to help deliver. Specifically, Lancaster University has established an exciting new campus in Leipzig, Germany. Located in one of Germany's most vibrant, liveable, and attractive cities, the Leipzig campus offers the same academic quality and fully rounded student experience as in the UK, with a strong strategic vision of excellence in teaching, research, and engagement. The post holder will be based on the Leipzig campus, and will involve teaching, research, engagement and administrative responsibilities. Teaching requirements are in the broader area of Management with a new MSc in Management starting in 2023.

Colleagues do have access to the research environment at Lancaster University Management School in the UK, but also can benefit from a very active research team in Leipzig. The expectation is to create a critical mass of empirical researchers that also have an interest in collaborating across

disciplinary boundaries. Particularly the Management department collaborates closely with the Computer Science department on topics like Machine Learning, Artifical Intelligence, Blockchain. The successful candidate will be an active member of a vibrant research community in a highly aspiring and collegial setting.

Please note this role a full time, indefinite post based in Leipzig, Germany and ideally we would like the appointed candidate to start at latest on 1ˢᵗ September 2023. The opportunity is unique as the role is permanent after 6 months probationary period with the opportunity of being promoted to senior lecturer, reader and professor in line with expectations. The contract is with Lancaster University Leipzig and therefore under German law.
