- applying for funding from local and foreign private and public sources

- collaborating with local and international universities, enterprises and the public sector
- publishing in high-level academic publications, including journals and book collections
- presenting research results in academic circles and for practitioners' audiences

Teaching:

- teaching the amount of 30 ECTS in Master's and applied higher education studies – including the development of subjects and specialities
- implementation and development of innovative teaching methods
- thesis supervision and participation in defense committees
- guest lecturing at partnering educational institutions
- applying for and carrying out projects related to the subject of study

Serving society:

- collaborating and contributing to the development of the talents and enterprises at Ülemiste City future city, the location of the university, and for the Estonian state
- applying for projects and (co)organising events that benefit society
- introducing the research results, study subjects and activities of the university to society
- regularly expressing opinion publicly in the respective field of expertise and the wider field of private applied higher education at various events and in media
- collaborating with other universities and companies
- involving alumni in both study and research activities, and in serving society

CONTRACT OF EMPLOYMENT: 5 YEARS FIXED-TERM**EXPECTATIONS FOR THE CANDIDATE:**

- Doctorate in one of the fields mentioned above or any closely related field
- substantial research experience
- teaching and supervising experience at all academic levels
- ability to publish in high-level peer-reviewed publications
- knowledge, skills, and experience in conducting both qualitative and quantitative research
- very good command of written and spoken English, intermediate (or higher) level Estonian
- interest in developing activities related to the university's activities in studying, research and serving society, and contributing to the social life in the university
- ability to work independently and perform well under stress
- ability and experience in working with business leaders
- ability to connect theoretical knowledge with real life needs
- readiness to start the professorship no later than 1 September 2023

GOOD TO HAVE:

- business experience

WE PROMISE:

- in addition to competitive salary, we reward your work with a diverse motivational package and offer self-realisation opportunities in a rapidly developing private university
- in addition to basic paid annual leave, we offer additional paid holiday during Christmas break and five extra days off in winter
- we enable you to develop and take the collaboration and partner relations to a new level, contributing to the continual development of the university
- we offer a supportive environment and the opportunity to work with an ambitious and

innovative team

- we offer a work environment where self-development, healthy lifestyle, and time spent with family and loved ones are valued and supported

REQUIREMENTS FOR APPLYING:

- CV with a list of publications
- academic portfolio
- copies of certificates of education related to the position
- a motivation letter

APPLICATION DEADLINE: 31 MARCH 2023

ESTONIAN ENTREPRENEURSHIP UNIVERSITY OF APPLIED SCIENCES (EUAS)

The Estonian Entrepreneurship University of Applied Sciences was founded right after Estonia regained its independence and has been active in the field of education since 1992. EUAS is the largest private university in Estonia. It has been unconditionally accredited and is applying for international accreditation. We offer education in business administration, information technology, arts and personal services curriculum groups at the applied higher education level and in the business administration curriculum group at the Master's level.

The motto of the university is "Capital for life!". Our mission is to develop entrepreneurial attitude and our vision is to be a renowned, prestigious, and innovative education, research, and development institution. To fulfil our mission and vision, we encourage entrepreneurship-based learning, synergy between curriculum groups, applied research and creative activities and we collaborate regionally and internationally with local governments, companies and universities.
