## Faculty positions in Engineering

We invite applications for full-time, on-site permanent appointments at one of three levels in the Department of Engineering at Reykjavik University within the following areas or related fields:

- Biomedical Engineering
- Electrical Power Engineering
- Energy Engineering
- Engineering Management
- Financial Engineering
- Mechanical Engineering
- Mechatronics Engineering

We strive to appoint faculty with the ambition to be academic leaders committed to producing internationally competitive research and highly qualified graduates.

The positions can range from Assistant Professor to Full Professor, depending on the current qualifications and status of the applicant. An evaluation will be carried out to determine the rank of the successful applicants.

### Duties:

- The successful applicants will teach approximately three 6 [ECTS](#) courses annually and are expected to advise MSc and PhD students.
- The faculty members are expected to develop courses within their specialization as well as addressing courses at various levels.
- The faculty members are expected to develop and obtain funding for research projects and carry them to fruition, successfully mentoring graduate students and post-doctoral researchers.
- The faculty members will also be expected to participate in administrative and outreach duties.

## Requirements:

- A PhD in the above-mentioned fields (or related scientific disciplines).
- An excellent record of quality, independent, and relevant research.
- Experience in teaching courses that are relevant to the applicant's expertise and experience in designing and organizing courses would be beneficial.
- Experience in working in or with industry is desirable.
- Interpersonal skills and the capability of working with diverse teams in disparate fields are desired.
- English fluency is required.

## Applications Process:

Applications should be submitted through the university's online applications website and should include the following documents:

- A cover letter specifying whether the candidate is applying for an appointment as an assistant, associate, or full professor.
- A CV with a complete list of publications.
- Copies of relevant certificates and diplomas.
- A research statement.
- A teaching statement.
- Any other relevant information the applicant wishes to supply.
- The names, institutional addresses, email addresses, and telephone numbers of three potential references.

For further information, interested candidates are invited to contact the Chair of the Department of Engineering, Dr Ármann Gylfason ([armann@ru.is](mailto:armann@ru.is)), or Ester Gústavsdóttir ([esterg@ru.is](mailto:esterg@ru.is)), Director of Human Resources.

The positions are open until filled, with an intended starting date as early as January 2024. Later starting dates can be negotiated. The review of the applications begins immediately and continues until the positions have been filled.

## About the Department of Engineering

The Department of Engineering offers engineering education in at both BSc and MSc levels. In total, about 750 students are enrolled in our programs. The Department of Engineering strives for excellence in teaching and research and an interdisciplinary experience for our students. It offers a lively and collegial working environment with good facilities and an international faculty.

## About RU

*Reykjavik University aims to create an international workplace that celebrates diversity and is characterized by respect for the individual. Equal opportunities for progression and salaries are essential values at RU, as stated in our [HR policy](#). We especially welcome international applications and applications from women and offer relocation assistance. Spouses of experts with a work permit based on expertise are exempt from requirement for a work permit in Iceland.*
